Certain information in this presentation is forward-looking and related to anticipated financial performance, events and strategies. When used in this context, words such as “will”, “anticipate”, “believe”, “plan”, “intend”, “target” and “expect” or similar words suggest future outcomes. Forward-looking statements relate to, among other things, ECN Capital Corp.’s (“ECN Capital”) objectives and strategy; future cash flows, financial condition, operating performance, financial ratios, projected asset base and capital expenditures; anticipated cash needs, capital requirements and need for and cost of additional financing; future assets; demand for services; ECN Capital’s competitive position; expected growth in originations; and anticipated trends and challenges in ECN Capital’s business and the markets in which it operates; and the plans, strategies and objectives of ECN Capital for the future.

The forward-looking information and statements contained in this presentation reflect several material factors and expectations and assumptions of ECN Capital including, without limitation: that ECN Capital will conduct its operations in a manner consistent with its expectations and, where applicable, consistent with past practice; ECN Capital’s continued ability to successfully execute on its strategic transition; the general continuance of current or, where applicable, assumed industry conditions; the continuance of existing (and in certain circumstances, the implementation of proposed) tax and regulatory regimes; certain cost assumptions; the continued availability of adequate debt and/or equity financing and cash flow to fund its capital and operating requirements as needed; and the extent of its liabilities. ECN Capital believes the material factors, expectations and assumptions reflected in the forward-looking information and statements are reasonable but no assurance can be given that these factors, expectations and assumptions will prove to be correct.

By their nature, such forward-looking information and statements are subject to significant risks and uncertainties, which could cause the actual results and experience to be materially different than the anticipated results. Such risks and uncertainties include, but are not limited to, operating performance, regulatory and government decisions, competitive pressures and the ability to retain major customers, rapid technological changes, availability and cost of financing, availability of labor and management resources, the performance of partners, contractors and suppliers.

Readers are cautioned not to place undue reliance on forward-looking statements as actual results could differ materially from the plans, expectations, estimates or intentions expressed in the forward-looking statements. Except as required by law, ECN Capital disclaims any intention and assumes no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.
Disclaimer

ECN Capital’s audited consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board and the accounting policies we adopted in accordance with IFRS. In this presentation, management has used certain terms, including adjusted operating income before tax, adjusted operating income after tax, adjusted operating income after tax EPS and managed assets, which do not have a standardized meaning under IFRS and are unlikely to be comparable to similar measures presented by other organizations. ECN Capital believes that certain non-IFRS Measures can be useful to investors because they provide a means by which investors can evaluate ECN Capital’s underlying key drivers and operating performance of the business, exclusive of certain adjustments and activities that investors may consider to be unrelated to the underlying economic performance of the business of a given period. Throughout this presentation, management used a number of terms and ratios which do not have a standardized meaning under IFRS and are unlikely to be comparable to similar measures presented by other organizations. A full description of these measures can be found in the Management Discussion & Analysis that accompanies the financial statements for the quarter ended September 30, 2019. ECN Capital’s management discussion and analysis for the three-month period ended September 30, 2019 has been filed on SEDAR (www.sedar.com) and is available under the investor section of the ECN Capital’s website (www.ecncapitalcorp.com).

This presentation and, in particular the information in respect of ECN Capital’s prospective originations, revenues, operating income, adjusted operating income, adjusted operating income EPS, and intrinsic value illustration may contain future oriented financial information (“FOFI”) within the meaning of applicable securities laws. The FOFI has been prepared by management to provide an outlook on ECN Capital’s proposed activities and potential results and may not be appropriate for other purposes. The FOFI has been prepared based on a number of assumptions, including the assumptions discussed above, and assumptions with respect to operating costs, foreign exchange rates, general and administrative expenses and expected originations growth. ECN Capital and management believe that the FOFI has been prepared on a reasonable basis, reflecting management’s best estimates and judgments, however, the actual results of operations of ECN Capital and the resulting financial results may vary from the amounts set forth herein and such variations may be material. FOFI contained in this presentation was made as of the date of this presentation and ECN Capital disclaims any intention or obligation to update or revise any FOFI contained in this presentation, whether as a result of new information, future events or otherwise, unless required pursuant to applicable law.

Affordable Housing

**Problem**
- Nearly one-third of all households and half of all renters are considered cost burdened
- According to Freddie Mac, up to 4 million new homes are needed to close the gap between affordable housing demand and supply – and growing by 370,000 per year
- Price to Income ratios back near peak levels (DTI)
- Demand for affordable homes poised to surge – millennials moving to prime homebuying years

**MH Solution**
1. MH average price per square foot is half that of site-built
2. MH homes completed in a controlled environment; leading to efficiency benefits of both speed and costs which are passed to the consumer
3. Triad funded loans average a payment to income of only 12%; Average FICO 746

**MH Satisfaction**
1. 71% of MH residents cite affordability as a key driver behind choice to live in MH
2. The chance to own is a top reason for living in MH (75% own or are in process of buying)
3. 78% of consumers who purchased new MH homes are extremely satisfied to very satisfied

1. Industry statistics by Manufactured Housing Institute (MHI)
2. Manufactured Housing Institute (MHI) study by Trifecta Research
MH Construction

**EFFICIENT**
- Factory built homes are built off site in a controlled manufacturing environment
- Approximately 80% to 90% of construction takes place indoors where materials are protected from the elements

**DURABLE**
- MH homes adhere to both federal and state regulation
- Once complete, homes are shipped and installed on a permanent foundation
- According to a MHI study, MH homes shipped today have a useful life over 55-years as compared to only ~20-years for homes built prior to HUD certification requirements

**AFFORDABLE**
- Typical monthly cost ~40% less than equivalent site-built housing or apartment rental
- Customizable with a variety of designs, floor plans and amenities
- Often indistinguishable from site-built homes
Triad Manufactured Home Financing
**Business Model Strengths**

- **Financial Institution Partnerships**
  - Non-recourse loan purchase arrangements
  - Diversity of institutions – 50+ bank and credit union partners

- **Low-Risk Loan Origination**
  - Prime & Super Prime consumers
  - Customer verification call prior to funding
  - No clawback on origination/transaction fees

- **Manufacturer & Dealer Network**
  - Over 3,000 dealer and manufacturer partners
  - Vetted national dealer networks – credit risk mitigation
  - Active partnerships with 8 of the top 10 MH Communities

- **Strong Regulatory Framework**
  - Licensed to originate and service loans in 47 states
  - Direct/Indirect oversight by CFPB, FDIC, OCC, NCUA, and state regulatory bodies
  - Zero objections or negative comments during formal examinations

- **Predictability**
  - Stable and consistent returns with a 60-year performance history

Managing Dealer Risk

Over 3,000 dealers and manufacturers

- Prior to submitting a credit application, dealers must be approved by the manufacturer and subsequently vetted by Triad as follows:
  - Dealer licensing
  - Financial statements
  - Business Equifax reports and of the principal(s)
  - D&B reports
  - Mortgage Asset Research Institute (MARI) Report
- Dealers are subject to an annual review of their most recent financial statements and dealer license, as well as updated Equifax reports every 24 months
- Instances of dealer fraud, such as sold out of trust, are mitigated through Triad’s audit procedures
  - 100% of transactions are subject to a verification phone call to the customer and a random sample of 10% of transactions are subject to a field audit conducted by an independent third-party
- Dealer agreements include full recourse of any loan which is deemed to have contained fraudulent information

1. Not including Managed Only
Difficult Model to Replicate

Niche relationships and track record built over 60 years is a paramount barrier to entry

To replicate Triad’s network would be time consuming and costly

**Origination Power of the Network**
- Reliable finance partner through economic and industry downturns
- Partners with all major manufacturers
- 3,000+ dealer relationships nationwide
- Financial Institution partners rely on Triad’s experience to deliver scale and diverse loan originations
- Origination network sources highly attractive and consistent loan originations

**Dealer Underwriting and Monitoring**
- Banks’ primary focus - credit losses and regulatory compliance
- Extensive dealer underwriting and monitoring ensures suitable loans for financial institutions
- Multi-point dealer underwriting model with continuous review and annual renewal ensures high-quality dealer base
Attractive Prime and Super-Prime Consumers

- Triad is the market leader originating and servicing prime & super-prime manufactured housing loans
  - 100% of originations sold with no recourse
  - High FICO borrowers; averaging ~746 FICO

1. Reflects MH Loan originations sold to bank network
Credit Crisis peak annualized net charge-offs of just 1.3% (after recovery)

Note: performance statistics measured in units
Low & Consistent Losses

Recent vintages continue to exhibit low loss curves

Note: Core Loan Program
Origination Margin Comment

- Origination margins on original origination program very stable
  - New program margins vary so mix will influence overall margin over time
  - Macroeconomic factors historically have had little affect on GOS margins
- Managed Only has lower origination margins with higher servicing fees
  - Managed Only growth rate has outpaced Core Originations which has led to slight overall margin compression
  - Total revenue impact mitigated over time with increased servicing fees

**Origination Margins**
Core + Managed Only

![Graph showing origination margins from Jan-18 to Sep-19]
Other Performance Highlights

Other Highlights:

✓ Originations ~+17%, revenue ~+22%, and adj operating income before tax ~+33% 2019 YTD through Q3

✓ Profitability – Adj operating income margin continues to expand

✓ Recurring revenues – full-serviced portfolio to 43% of loans; up from 26% at deal announcement

✓ Efficiency – Margins continue to expand since acquisition on 12/29/2017

1. Adjusted operating income margin = adjusted operating income before tax/total revenues
Triad Growth & Forecast

Presenters: Michael Tolbert, COO
Matthew Heidelberg, SVP Business Development
Growing the Funnel Since 2017

- Growing the size of the funnel (total applications) drives approvals & origination growth
  - Strengthens manufacturer/dealer partnerships
  - New Programs with ECN support
    - Floorplan, MH Commercial (2020 launch), Land Home opportunity (2020 expansion)
    - Dealers utilizing floorplan sending more apps resulting in 3x more originations
  - Increased look-to-book from 16.9% to ~20% in 2019 without changes to program or underwriting profile; more apps turning to originations
    - Conservatively assuming ~21% look-to-book in 2020
- 2020 forecast originations of $680 million - $720 million implies total applications funnel of ~$3.4B

1. Look to book = Originations/applications
Growing the Funnel Case Study – Floorplan

- Floorplan (FP) program built using ECN’s balance sheet combined with Triad’s manufacturer and dealer demand for inventory finance
- Triad utilized ECN’s extensive commercial finance expertise to structure the FP program
- FP program drives significant new application volume from utilizing dealers
  - 3x growth from FP dealers vs. non-FP dealers; +57% origination growth YoY vs. +17% overall
  - Industry shipments flat YTD (units)
- Short Duration product – WAL of ~7 months
  - 70% <30 days (construction), 30% up to 2 years (inventory)
  - Funded ~$350 million; Balance of ~$100 million
  - 2020 expected balance of $115-$125 million
New Programs for 2020

**Commercial MH Program**
- Launched commercial MH finance program in January 2020
  - Financing provided to MH communities for corporate owned homes (typically rentals)
  - Triad utilized ECN’s extensive commercial finance experience to design program
  - No recourse to Triad
  - Identified existing and new funding partners for this program
  - Triad will service the portfolio
  - Anticipate this business to strengthen and expand community partnerships – leading to increased Managed Only originations

**Land Home**
- Launching enhanced land home product in 2020
  - Currently land home represents ~14% of Triad’s originations (land home + land plus)
  - Product needs to price more like mortgage – too low for Triad’s core program
  - Will launch with new funding partners that want this product at competitive rates
  - New funding partners - Large US based life insurer
  - Leveraging existing infrastructure – high margin
  - Triad will service the portfolio
Monetizing the Existing Funnel 2019-2020

- Significant opportunity exists in monetizing more of the funnel (applications)
  - Already have the apps
  - ~50K apps per year; ~$1.7B in rejected in 2019
  - Leveraging existing infrastructure – high margin
- For many years, dealers and manufacturers have requested Triad expand its credit box
  - Designed to offer dealers additional product without directly entering the market
- Launched Bronze program in January 2020
- No recourse to Triad
- Triad will service; similar to existing COP servicing
- Currently approving loans
- Anticipate this business will be a significant contributor, but represents <1% of adjusted operating income before tax in 2020 guidance
Monetizing the Funnel – Bronze

- ECN worked with Triad to launch the Bronze program in order to monetize more of its existing application pipeline
  - ~$1.7B in 2019 rejected apps; ~$5B since 2017
- Triad earns fees to facilitate our dealers, introduce and to service
  - No recourse to Triad
- Launched program with new funding partner
  - Committed strategic institutional investor
  - ~$100+ million in committed funding as launch partner
  - Multiple lenders interested in this flow
- More satisfied customers, higher close rates for dealers, attractive loans for partner lenders
- Rolled out the product in January 2020
  - Dealer education and training is a priority
  - Well received at 2020 Louisville MH trade show
**Triad - Performance Since Investment**

**Other Highlights since the transaction:**

- Broadly diversified funding model continues – 50+ active financial partners
- Built Floorplan business which is increasing MH market share
- Fully serviced assets have grown to 43% from ~26% at the time of the transaction
- Adjusted operating income outperforming original forecast
- EBITDA margin outperforming original forecast
- Technology improvements including SAP and new servicing system launch enable scale

REVENUE MIX HAS SHIFTED TO HIGHER QUALITY RECURRING REVENUE STREAMS

- Longer term, recurring revenue from Partnership Services and Marketing Services; 3 to 10-year contracts with high renewal probability
- Partnership and Marketing Services have higher margins, longer term revenue streams, and produce more predictable profitability
- Transaction Services mandates now focused on driving incremental Partnership Services agreements
- We have renamed our products to more fully align with business fundamentals

(1) Partnership Services includes Card Investment Management revenues
1. Partnership Services
OVERVIEW

• KG acts as an intermediary providing advisory services to both cobrand and bank partners

• Cobrand cards are different than general purpose cards requiring specialized expertise; KG is the expert after creating more than 6,000 of them

• Leverages multi-decade cobrand relationships

• Cobrand portfolios are typically a portion of a bank’s overall portfolio and tend to move from bank to bank over time
  • More efficient for bank partners to outsource certain responsibilities to Kessler vs. build internally

• Revenue typically performance driven by new account generation or portfolio balances

• Long duration contracts – generally 3 to 10 years with high probability renewals

Over 6,000 partnership programs have been created by KG over the last 40+ years including programs with:

- Cabela’s
- Walmart
- L.L.Bean
- jetBlue
- Southwest
- Hawaiian Airlines
- NEA National Education Association
- AAA
- AFL-CIO

Program longevity example: AFL CIO has been a client for decades, through several different issuing banks; Kessler has advised on this portfolio for each issuer bank due to its long-term cobrand relationship and history of management success

KEY TERMS

- Bank pays KG an upfront 15 bps transaction fee (Transaction Services revenue)
- Bank pays KG an on-going fee of 15 bps on average annual balances to manage cobrand relationship and help grow balances (Partnership Services revenue)
- Payments are for the life of agreement between bank and the partner - 3-10 years with high probability of renewal
- In this example, KG revenues of $7.0 million over the seven-year period for supporting the acquisition and partnership between the bank and the retailer

CLIENT BENEFITS

- Acquisition of new portfolios
- Experienced contract negotiation and structuring
- Portfolio retention and renewal
- Portfolio optimization and cost reduction
- Program design and marketing execution
- Disposition of non-strategic assets
OVERVIEW

• KG is leveraging 40+ years experience in portfolio M&A, valuation and product structuring to build a card investment management platform

• Historically cobrand portfolio’s changed hands from bank to bank

• ECN helped KG build a platform to move portfolios from banks to institutional investors
  • ECN has participated in four unique transactions to facilitate the build-out
  • **Intention is to limit future ECN capital investments and build management and performance fees**

• Investment partners receive unique investment opportunities and experienced management

• KG sources, underwrites, negotiates, structures and manages credit card investment opportunities

• Banks retain servicing and customer relationship strengthening strategic bank relationships

• Unique nature of each portfolio opportunity requires a high level of expertise and customized financing structures

• Partnering with leading banks and institutional investors to fund portfolios sourced by KG
BENEFITS TO CLIENT

• Banks release capital held against non-strategic assets, freeing it for re-deployment against higher priority activities
  • Non-strategic portfolios
  • Run-off card portfolios
  • Lost endorsement portfolios
• Helps manage changes in accounting rules that increase loan loss reserve or capital requirements
• Sellers move receivables off their balance sheet, allowing them to release Loan Loss Reserves and report better delinquencies/loss performance
• Bank retains servicing to avoid impact to overall customer relationship

~$10 B Opportunity by Type of Portfolio

- Run-off: 63%
- Lost Endorsement: 13%
- Non-Strategic: 24%

1. KG estimates
ECN INVESTMENTS OVERVIEW

- ECN has participated in 4 portfolio transactions involving ~$1 billion in card receivables in order to facilitate the build out of this platform
  - Invested ~$125 million; ~$90 million outstanding
  - Expected management fees of ~$13 million; additional performance fees earned after certain hurdles achieved
  - Expected leveraged capital returns of 15%-30%
- Acquired portfolios are either in run-off (2) or have active charging privileges (2)
- ECN has made modest pari-pasu investments across the capital structure
- ECN views this build out similarly to its Floorplan program at Triad or its Dealer Advance program at Service Finance
  - Modest capital invested to build a platform using operating partners expertise
  - Principal focus is to build long-term fees; not capital returns
- As the platform has been built and the principal focus is to build fees, ECN expects limited further capital commitments

**Key Terms**

- Run-off travel portfolio acquired in June 2018 for 93% of par value
- An acquired airline ended its cobrand partnership (purchasing airline had a separate issuer relationship)
- Issuer agreed to retain servicing indefinitely
- ECN co-invested alongside an equity partner and provided senior debt financing

**Revenue Model**

- Significant capital invested has been repaid
- KG receives a management fee on average principal receivables of 1% on this example
- KG eligible to receive performance fees if certain performance thresholds are achieved
- Blended leveraged returns on ECN capital ~30%
2. Marketing Services
OVERVIEW

- Leveraging decades of card marketing expertise KG offers both fee based and funded marketing programs to bank clients

- Funded programs consist of several short duration campaigns that typically recur resulting in long-term client relationships

- Card marketing services include:
  - Product design and differentiation
  - Marketing strategy, including targeting, segmentation and channel development
  - Direct mail & digital campaign management
  - Competitive industry analysis
  - Ongoing program monitoring, modeling and analytics

- Funded programs consist of short duration campaigns that pay back quickly based on accounts opened

BENEFITS TO CLIENT

• Superior outcomes at lower overall cost
• Regional banks or smaller institutions lack KG’s full range of capabilities
• Allows clients to better manage internal budgets and marketing spend
• Funded programs mitigate J-curve effects by enabling clients to amortize payments over the life of the account, resulting in better revenue and expense match

PRODUCT OFFERING

• Kessler offers marketing services for a range of products that have high upfront acquisition costs and a multi-year average customer life
  • Credit cards, DDA, HELOC, mortgage, student loans, wealth products
### Marketing Services | Illustrative Example

#### Key Terms

- Funded marketing program for checking accounts
- 6 direct mail campaigns per year with a total cost of $10 million
- Program is expected to create 40,000 new accounts resulting in a $250 cost per account originated

#### Revenue Model

- Kessler is paid 5% of marketing spend as a fee on top of per account payment
- Total capital of $3.6 million required to fund $10 million program

Revolving Balances

Revolving balances have generally been resilient through most cycles with the exception of the financial crisis from 2008-2011.

- In most recessionary periods since 1968 revolving balances have been resilient.
- Excluding pre-1980 periods (smaller total balance/new product) and the financial crisis balances grew on average by 7.7% through recessions.
- Financial Crisis balances dropped 21%, from peak, but this period marked an extraordinary consumer recession.

1 Consistent pricing — having no changes in dealer fees over the last 12 months
2 Hidden fees can include but are not limited to interchange, card activation, minimum volume, ACH etc.
3 Options available for most consumer credit types — no menus and no limitations
4 All providers have online consumer credit applications, however SFC’s trails in functionality and user friendliness
5 SFC’s new requirements, effective October 15, 2018, requires no work order, verification, and/or proof of ownership.
Non-recourse origination fees are earned with no risk of adjustments for loan performance, interest rate changes, prepayment, etc.

Recurring, high margin servicing revenue

Focus on consumer protections and regulatory compliance

- SFC operates and is licensed in all 50 states
- Does not rely on the use of a 3rd party bank charter for federal pre-emption
- Borrowers required to review truth in lending disclosures and execute loan documents
- All borrowers receive a borrower verification call PRIOR to the funding of a loan confirming the consumer is satisfied and that they understand the terms and conditions of the loan

Why Dealers Choose SFC

FINANCIAL INDUSTRY SOLUTIONS
Dealer Base is a Barrier to Entry

Exclusive manufacturer agreements drives network of ~11,000 dealers built over 10+ years is a paramount barrier to entry

To replicate SFC’s network would be time consuming and costly

1 Source: Home Improvement Research Institute Forecast Update September 2019; Does not include Labor costs
2 ECN estimates; SFC origination estimate at the midpoint of 2020 guidance range of $1.9 Billion - $2.1 Billion
Originations growth without changing credit profile; consistent underwriting profile drives continued funding partner acceptance

- Consistent Weighted Avg FICO of ~760+
- Originations CAGR of 60% 2013-2019\(^1\)
- 2019 estimated origination growth of ~24% - 40% Y/Y using forecast range of $1.6B - $1.8B

Huge market opportunity - taking share from cash, credit cards & HELOCs

- Origination growth is not dependent on taking share from existing competitors
- Only ~10% of the addressable market represented by top 5 competitors (previous slide)
- SFC originations represent ~1.4% of its addressable market in 2019
Take Share/Make Share

**Take Share - Lennox**
- Demonstrated success in taking market share by displacing competing financing providers
- SFC earned an exclusive contract to offer installment financing to the Lennox dealer network in 2015
- Service Finance has quadrupled financed volume for Lennox since 2015 and increased the average ticket size by ~2x
- 2019 volumes +24% Y/Y

**Make Share – Owens Corning**
- Demonstrated ability to design and launch programs and make market share
- Owens Corning did not offer dedicated financing solutions through its dealer network
- SFC successfully designed, launched and grew a financing program for Owens Corning which has seen tremendous growth
- 2019 volumes +42% Y/Y

Resilient Long-Term End Market

The home improvement market has demonstrated resilience through economic conditions, as expenditures have increased steadily even through most recessionary periods. The only material correction occurred during the Financial Crisis, which was preceded by a well above trend spike in volume as a result of easy housing credit. Even so, the home improvement market only fell to trend and then resumed growth.

Current Programs & Origination Margin Comment

- Originations are now primarily flow programs
  - Existing flow programs are now ~90% of originations (original + solar)
  - New Complementary Flow (CF) program is the other ~10% of originations currently
- Origination margins on original origination program very stable
  - Minor monthly fluctuations primarily due to seasonality and program/channel mix
  - Macroeconomic factors historically have had little affect on origination margins
- Solar and CF have lower origination margins, which will reduce overall origination margins, but is incremental flow that our funding partners have requested
  - These programs create additional revenue within existing capacity on SFC`s platform
Other Performance Highlights

✓ Originations ~+25%, revenue ~+30%, and adj operating income before tax ~+29%
  2019 YTD through Q3

✓ Profitability – Expected EBITDA margins of ~69% in 2019

✓ Recurring revenues – long-term servicing
  revenue now ~50% of total revenues

✓ Efficiency - Revenue and Adj operating
  income before tax per employee continues to scale (left chart)

✓ Financial partner commitments +82% in
  2019

✓ Rolled out new manufacturers and
  launched several new programs
Growing the Funnel Since 2017

- Growing the size of the funnel (total applications)
  - New manufacturer/retailer partnerships
    - Beacon, Abbey Carpet etc.
  - New Programs with ECN support
    - Solar, Progress Pay, Dealer Advance etc.
  - Consistent dealer growth
    - ~7K to ~11K dealers 2017-2019
- Increased utilization - training & support
  - Average monthly active funding dealers increased from 19% to 21% 2017-2019; 62% more dealers funding monthly
- Increased look-to-book from 35% to ~40% without changes to underwriting profile
  - Conservatively assumes flat look-to-book in 2020
- 2020E for total applications funnel of ~$5B

1. Look to book = Originations/applications
Monetizing the Existing Funnel 2019-2020

- Significant opportunity to monetize more of the existing funnel
  - Already have the apps
  - ~$2B in estimated rejected apps in 2020
  - Low additional resources required – high margin
- Began in Q1 2019 with the launch of the Complementary Flow (CF) program
  - Program launched with select bank partners
  - Similar credit (Avg FICO ~760+) and performance to original program but falls outside original program underwriting criteria
- Launched Multi-lender program in January 2020
  - Anticipate this business will be a significant earnings contributor, but is not included in current guidance

Approvals, Rejections & Originations (US$, millions)
Monetizing the Funnel – Multi-Lender Platform

- ECN worked with Service Finance to launch Multi-lender Platform (MLP) for rejected applications
  - ~$1.6B in 2019 rejected apps; ~$5B since 2016
  - Multiple lenders interested in this flow
- Service Finance earns a fee to introduce
  - No recourse; No servicing asset
  - Service Finance always has first look
- Partnered with leading technology providers
  - Universal application on existing kitchen table app
  - Powered by blockchain enabling instant decisions
    - Upon rejection by SFC, multiple offers from partner lenders generated instantly for qualified customers on the app at the kitchen table - seamless, easy process
- More satisfied customers, higher close rates for dealers, attractive loans for partner lenders
- Expect to roll out the product across the Service Finance dealer base in 2020 – dealer education and training is a priority

FINANCIAL INDUSTRY SOLUTIONS

Balance Sheet Programs – Balance Sheet Light

- As we have described, ECN uses its balance sheet to create “foundation products”
- ECN’s operating companies enjoy the benefits of ECN’s investment grade rating enabling these programs
- Three largest programs to date are Solar, Complementary Flow (CF) and Floorplan
- Collectively funded almost $1.1B in originations under these programs
- Only ~$150 million on balance sheet at YE 2019 – programs are balance sheet light
- Active bulk sales, solar conversion to flow and short duration floorplan limits exposure
- Average age of loans on ECN’s balance sheet is ~4 months on average – low risk exposure
